Education

Shah & Anchor Kutchhi College of Engineering, Mumbai, India　　　　**2022- 2026**
- BTech in Computer Engineering | CGPA: *9.22*　　　　(expected)

Indian Institute of Technology, Madras, Remote　　　　**2024 - 2028**
- BS in Data Science | *CGPA: 7.7*　　　　(expected)

BK Birla College of Arts, Science & Commerce, Kalyan, India　　　　**2020 - 2022**
- Maharashtra Board (Science), Percentage*: 75 %*

Skills

Python | Java | Django | JavaScript | PostgreSQL | MySQL | Git | Spring boot | HTML | CSS | Postman |

Projects

Zaikaa – Django Mobile Booking Web App ↗ | Django, HTML, CSS, JS, AWS, Nginx, Gunicorn, PostgreSQL

- **Optimized real-world queue management** with a mobile-first booking system, driving a **40%** year-over-year profit increase by minimizing wait times and maximizing stall throughput.
- **Integrated seamless payments** via Razorpay for online transactions alongside offline payment support, ensuring secure transaction flows.
- **Designed multi-role admin panels**: stall admins update delivery statuses in real time; main admins approve offline payments and export transaction reports to Excel; supported **1,000+** transactions and onboarded **200+** active users.

ColdConnect – AI-Powered Cold Mail Generator ↗ | Django, HTML, CSS, JS, Langchain, GROQ API, Firebase

- **Led development** of an AI-driven platform utilizing Crawl4AI to harvest and preprocess web data, structuring insights into JSON for downstream generation.
- **Implemented Groq API with Llama 3.1 70B** to transform structured JSON into personalized, high-impact cold emails, automating content creation and reducing manual drafting time by 75%.
- **Built SMTP integration** for automated dispatch of tailored outreach messages directly to HR contacts, enabling scalable recruitment and sales campaigns.

TaskMaster – Todo List | Spring Boot, JPA (Hibernate) ,MySQL, Thymeleaf, Bootstrap CSS

- Built a full-stack Todo app with **Spring Boot** and **Hibernate**, enabling task creation, update, deletion, and status toggle via RESTful endpoints.
- Crafted responsive **Thymeleaf** views with Bootstrap.
- Configured **MySQL** and leverage services

Academic and Extracurricular Achievements

- Competed against **40** teams in an inter-college AI game development hackathon hosted by my college, winning the first prize of **₹10,000**.
- Secured the **top** rank in the Computer Engineering branch among all first-year engineering students in **2022.**

Positions of Responsibility

Entrepreneurship Cell | Website Head　　　　**Aug'24 -Present**
- Developed and Managed event website in under **15** days
- Directed a team of **6** people

SAKEC Marathon | Core　　　　**Jan'25 – Mar'25**
- Volunteered in SAKEC Marathon and was able to refer **30+** people and build connections
- Handled a team of **9** people
